

Your own *branded* 360 degree feedback tool

What better way to enhance your business than with an online 360 feedback toolbox where you can deliver a seamless 360 degree feedback service to your clients complete with your own branding. It's based on the same proven online 360 degree feedback engine that powers our Instant360 service, but white labelled to your corporate look and feel.

Here's what you get with your online 360 degree feedback toolbox:-

- A branded website - powered by us - which lets you deliver seamless 360 degree feedback services into your clients with your own corporate look and feel - making you look good too!
- Feedback reports branded to your requirements.
- Your own homepage for you to promote your 360 feedback services.
- A fully supported service - we handle the support, the helpdesk and make sure your service runs smoothly. Leaving you to concentrate on your customers.
- Total maintenance – because it's a hosted service we handle the maintenance and the updates. When we make improvements to our software you get them automatically and you benefit from our pool of experience.
- Optional bolt on analysis tools to help you detect trends in your data and present your findings back to your client.
- Freedom to use your own competency frameworks or choose from our standards ones. Whatever suits you and your client.
- Low setup price of £1500 plus just £25/month for support, hosting and management.
